**Beginning May 1**, all Kodiak commercial sac roe herring fishermen that wish to continue fishing after April 30 must be registered with the department. Registration began on April 25 and may be accomplished either in the Kodiak fish and game office, or with fish and game personnel when available in the field. Communication is critical to effectively manage the commercial herring fishery. **Herring fishermen will need to contact the department prior to fishing in an area and when herring are harvested. Failure to do so will result in area closures.**

The current estimate of the total harvested herring in the Kodiak Management Area is approximately 4,000 tons.

The following areas are closed to commercial herring fishing for the remainder of the season:

- The Outer Kiliuda, Outer Ugak, Inner Ugak Bay, and East Sitkalidak sections of the Eastside District, the Kizhuyak Bay Section of the Inner Marmot District., Village Islands/Uganik bays sections (UG 30 and UG 32-34) of the Uganik District, the Geese/Two Headed Section (AL 60) of the Alitak District, and the Danger Bay Section (SA 40) of the South Afognak District.

#### **PURSE SEINE GEAR (DELAYED OPENING) AREAS**

**The following section will also open to purse seine gear, but the initial purse seine fishing period will be delayed. There will be 24 hour advance notice prior to opening this area:**

<u>Northeast District:</u>	<u>GHL</u>
(NE10) Womens Bay	50

### **EXPLORATORY AREAS**

**The following sections are designated as EXPLORATORY, and opened to either gear type, with differential fishing periods by gear type as outlined above for purse seine or gillnet gear:**

Afognak Districts:

(WA20) Delphin Bay  
(WA40) Bluefox Bay

Eastside District:

(EA10) Kaiugnak Bay  
(EA20) SW Sitkalidak  
(EA22) Newman Bay  
(EA31) Tanginak Anchorage

Mainland Districts:

(NM20) Inner Kukak Bay  
(MM10) Inner Katmai Bay  
(MM30) Alinchak Bay

(MM40) Puale Bay  
(MM50) Portage Bay  
(SM10) Wide Bay

The remainder of the Kodiak Area will stay closed to commercial herring fishing for the entire sac roe season.

Guideline harvest levels and maps of open sections and gear assignments are available at the Kodiak office and in the herring sac roe fishery harvest strategy for the 2013 season. Fishermen are urged to check with their market and test their catch prior to landing herring. Determining if size or roe quality meets processor standards is the responsibility of fishermen and industry. It is anticipated that many small and green fish will be present on the grounds during the initial open fishing periods. Recent fishery information may be obtained by calling the Departments 24-hour record-a-phone at 486-4559.
